

PLUTO PLUS PRODUCTSHEET

“Every detail has been thought through from the user to the rental company point of view. This makes the Pluto Plus the most practical portable urinal on the market.”

Pleasant to work with

Enjoy the flexibility of adding a concealed drain on two sides, enabling series connection. The urinal lid with a threaded closure simplifies maintenance. Equipped with double handles on all sides, effortlessly move or position the urinal exactly as needed.

Advantages

- Integrated lifting eye.
- TUV stress tested with 800kg ballast
- Double hand grips on 4 sides
- 2X concealed drain (both sides one)
- Large fork slots suitable for pump trucks
- Separate bottom - protects the tank and extends lifespan
- Urinal lid with thread

Easy installation and transport

Simplify your event logistics with the Pluto Plus Urinal, designed for effortless installation and transport. The integrated lifting eye, rigorously TUV stress tested with an 800kg ballast capacity, ensures quick loading and unloading at events and in your warehouse. Large fork slots accommodate pump trucks, enabling smooth urinal relocation. Thanks to the upright walls, transport straps remain securely in place, eliminating concerns of slippage during transit. Elevate your event planning experience with a urinal that not only enhances restroom facilities but also streamlines logistical processes. Choose ease, choose Pluto Plus Urinal.
